

Student Card Policy

Fremont Area District Library's goal is to make library services available to all school-aged children. With the Student Card, children who attend any K-12 school can check out a maximum of two books, and have access to FADL's digital content. Student Cards must be signed by a parent or legal guardian and will expire once the student turns 18 years of age.

Students are also eligible for a standard FADL minor library card based on residency. A parent or guardian must be present at the FADL with proof of residency for the minor to be issued a standard FADL minor library card. Students residing outside of the FADL service area can still register for a card at their home library. A maximum of two lost books will be allowed on this card. The card will be deactivated after two lost books.
